

Kaveti Harini

Saidabad, Hyderabad, 500059 — Phone: +91 8341871678

Email: harinikaveti2003@gmail.com — **LinkedIn:** linkedin.com/in/harini-kaveti-3246311bb

Professional Summary

Motivated Computer Science graduate with skills in Java, Python, and web development. Trained in Java Full Stack with hands-on internship experience. Strong in problem-solving, teamwork, and eager to build real-world applications.

Skills

Programming Languages: Java, Python

Web Technologies: HTML, CSS, JavaScript

Java Technologies: JDBC, Hibernate

Databases: MySQL, Oracle Database

Development Tools: Eclipse, Visual Studio Code, Git, GitHub

Core Concepts: Object-Oriented Programming

AI/ML: Basic AI/ML, Data Annotation, Model Training Concepts

Experience

AI Image Annotation Intern

Student Tribe — Mar 2026

- Completed a 14-day internship in AI Image Annotation.
- Gained understanding of AI model training and data annotation workflows.
- Contributed to AI model training by analyzing prompts and matching relevant images.
- Improved data accuracy and attention to detail.
- Collaborated with team members and followed guidelines.

Infosys Springboard – Virtual Internship

Project: Receipt and Invoice Digitizer — Dec 2025 – Feb 2026

- Developed an OCR-based receipt digitization system using Python to extract structured data from invoices.
- Implemented Regex-based field extraction for date, vendor, invoice ID, tax, and total amount.
- Built an interactive Streamlit dashboard for document upload and automated data extraction.
- Stored extracted records in SQL database with search and retrieval functionality.
- Implemented duplicate detection and validation to improve data accuracy.

Projects

YOLO-based Detection and Predictive Mapping of Foreign Object

Technologies Used: Python, OpenCV, NumPy, Pillow

- Engineered an automated safety monitoring system using the YOLO architecture and OpenCV to detect foreign objects on airport runways through real-time image processing.
- Optimized detection accuracy and localization by implementing image preprocessing and bounding box coordinates using NumPy and Pillow, ensuring precise identification of debris in various conditions.

Education

Bachelor of Technology - Computer Science(AIML) - Percentage- 77

Guru Nanak Institute of Technology, Hyderabad

2021 – 2025

Higher Secondary (MPC) - Percentage- 90

Sri Gayatri Junior College

2019 – 2021

Secondary School (SSC) - Percentage- 88

Sri Vignana Vardhani High School, Hyderabad

2018 – 2019

Training/Courses

Full Stack Java Development - Q spiders, Hyderabad, June 2025 - Feb 2026

- Receiving structured training in Java, backend development, databases, and web fundamentals.
- Practicing coding standards, debugging, and application-level problem solving.

Certifications

- *Revature Pre-Training (Python Essentials)* - 2025
- *Accenture Data Analytics and Visualization (Forage)* - 2025
- *TCS iON Career Edge (Young Professional)*- 2024

Achievements / Activities

- *NSS Volunteer* – participated in community service activities.
- *Organized flash mob and marketing campaign* as part of Under25 event team
- *Participated in multiple dance competitions* during college.
